

KGCW2023: Information for Accepted Papers*

In this document, we provide important details regarding Camera-Ready Submission, Presentation, and Registration for accepted papers at KGCW2023.

(1) Camera-Ready Submission

Please submit the camera-ready version of your paper by May 12th, 2023 (AoE timezone).

You have to upload to our [NextCloud Folder](#) a **ZIP file containing two files**:

- paperX.pdf
- AUTHOR-AGREEMENT-paperX.pdf

where X is the submission ID given by OpenReview (if you do not find it, it is also mentioned in the **title acceptance comment or meta-review comment at OpenReview**). The ZIP file must be also named paperX.zip

**paperX.pdf* is the camera-ready version of the paper*

**AUTHOR-AGREEMENT-paperX.pdf* is the author's agreement.*

A. Paper

When preparing the final version, please incorporate the suggestions from the reviewers, which were provided in the OpenReview acceptance email. Take into consideration the limitations in terms of the size of the papers depending on the type of submission (<https://w3id.org/kg-construct/workshop/2023/#call>). **The camera-ready paper must adopt the CEURART 1-column style (LNCS is not valid anymore)**. Do not include **page numbers**. The paper title should use the **emphasizing capitalized style**: i.e. "Ontologies for Good Health and Fun" but not like "Ontologies for good health and fun".

The following command should appear in the CEURART template:

`\copyrightyear{2023}`

`\copyrightclause{Copyright for this paper by its authors.`

`Use permitted under Creative Commons License Attribution 4.0`

`International (CC BY 4.0).}`

`\conference{KGCW'23: 4th International Workshop on Knowledge Graph Construction, May 28, 2023, Crete, GRE}`

B. Author agreement

Choose the appropriate template from:

- [AUTHOR-AGREEMENT \(NTP\)](#): Authors shall use this form if they included no copyrighted third-party material in their paper text (or accompanying sources, datasets). This is the correct variant in most cases.
- [AUTHOR-AGREEMENT \(TP\)](#): Authors shall use this form if they did include copyrighted third-party material in their paper or accompanying material. They must then also attach a copy of the permission by the third party to use this material in the signed author agreement!

* Based on ISWC2020 P&D Author instructions document

You should complete the template, **physically sign with an ink pen on paper**, and submit an electronic scan of your signed paper agreement. **Other forms of signature, such as those produced by an electronic stylus, are not acceptable.** An alternative for those without access to printers or scanners is to fill in the form digitally, place a hand-signed statement below the form, and then take a photo of it; see the example [surrogate agreement](#). In the AGREEMENT document, please use the following:

- **Name and year of the event:** 4th International Knowledge Graph Construction Workshop at 20th Extended Semantic Web Conference, 2023
- **Editors of the proceedings:** David Chaves-Fraga, Anastasia Dimou, Dylan Van Assche, Ana Iglesias-Molina, Umutcan Serles.

(2) Presentation

Details on the presentations will be given closer to the workshop. **KGCW is an onsite event (neither hybrid nor online).** The program will be detailed on the workshop website: <https://w3id.org/kg-construct/workshop/2023/#program>

(3) Registration

At least one author of each accepted paper must register for the conference. See <https://2023.eswc-conferences.org/registration/>. **Online presentations are not allowed!**

(4) Questions?

Send an email with your questions or doubts to david.chaves@upm.es
